Dear Sir,

Letter dated 26-5-09 re Transpower Upper North Island Grid Upgrade Proposal

We received the disc with the above letter but were unable to make it work on any of our CD / DVD machines.

We have just today received by courier the Draft Report. Therefore it has not been possible to properly peruse the Draft in detail.

However, we wish to register our opposition to the proposed upgrade, as we have previously made known in written and oral submissions, particularly the sub-station in Brownhill Road. We have consistently maintained that the line should be underground from much further south.

We are prepared to speak at any future hearing.

Yours Faithfully

Marion Hunt
