

31 Oct. 2008

I, Annette Elizabeth Joel, **OPPOSE** the Proposed National Policy Statement for Renewable Electricity Generation in its present form.

Because of time constraints I have not been able to write my own submission.
To this end, I endorse the submission of Owen McShane in its entirety.

I would be most grateful if I could participate in the second round of further submissions as well as being sent a copy of the summary of submissions.

Thank you for the opportunity to participate,

Annette Joel
