I strongly support the proposal for a legislative ban on microbeads in New Zealand, and urge the Government to introduce the ban as quickly as possible. We do not need them in our cosmetics. Everybody could clean themselves just fine without little beads of plastic rolling around in their handwash. Our world is literally awash with un-needed environmental hazards, all in the name of coming up with the latest thing to promote more sales. We do not need this garbage! Ban it while we can! PLEASE! Yours sincerely, Julia Dolan
